

Address: 122 Hihmount Ave, Nyack NY 10960

System: 24 SunPower M425 Black on Black, 10.2 KW DC

The M-Series module has anti-reflective coating properties. It has 3 array, one in the front and two at the rear. The array on the front is in rectangular shape and the array at the rear conforms to the shape of the roof where it is located. The house is also two story and all PV Array is at the second story roof.
