ATTN: Architecural Review Board

**RE: 629 North Midland Ave. (Campomanes\_Rooftop Solar)**

Project Narrative:

Proposed rooftop solar array for residential property located at 629 North Midland Ave. Upper Nyack, NY 10960. Total system size will be 15.54kW consisting of (37) 420W REC panels with Enphase micro inverters. Panels will cover 771.45 sq. ft. on the roof in the front of the house with no visual from side neighbors. Panels include anti-glare coating with black framing. Panels are proposed to be installed in symmetrical and uniform arrays on low pitched hipped roof planes. Please refer to the attached engineering plans provided for layout specifications.

**Sincerely,**
