Single Family Residence, Solar Panel Loading Certification
Village of Upper Nyack, County of Rockland, State of New York

Dear Building Department

I am the engineer of record for the above referenced project. I have prepared the attached plans dated January 9, 2024 that consists of the installation of (46) REC 410W solar panels at the above referenced location.

I can hereby certify that the existing roof structure combined with the additional weight of the solar panels meets the requirements of The 2020 Residential Code of New York State, Publication Date, November 2019.

The design loads were as follows,

Roof Design Load: 40psf live load

Wind Design Load: 120mph

No additional structural members were required.

The roof is currently framed with 2x10 wood framing @ 16" O.C. The roof structural members are in compliance with ASCE 7-16 for deflection and acceptable bending stress.

If you have any questions, please feel free to call me at any time. Thanks in advance.

Sincerely Yours,

Michael E. Miele, PE
