Chairman Pfaff,

The site plan revision dated 5.17.21 revision #4 reflects the ZBA approval of 9.15.2020 for the expansion of an existing non-conforming building as well as memorializing the existing side yard setbacks. Since the last review by this board, we have added a first-floor addition at the main entry to flush it out with the front of the house. The existing open deck will be replaced and expanded slightly as noted on the site plan. The architectural plans reflect the first-floor front entry expansion, and the second-floor plan reflects design changes with windows and rooflines. Note the changes to the roof did not increase the overall height of the second floor.

We are requesting a referral to the Architectural Review Board before returning to this board for final site approval.

Please call if there are any questions or any additional project requirements.

Regards,

Kier B. Levesque R.A.
