MP Momentum™ Deep

With the MP Momentum Deep, you don't have to choose between a backyard swimming pool and a hot tub. Two sets of temperature controls allow you to exercise in cooler water and retreat into warm water up to 99 degrees. A generous swim area is ideal for aquatic fitness and refining your stroke. And the innovative propulsion system delivers a smooth, wide current that you can adjust based on your wellness goals. The adjoining hot tub features ergonomic seating and adjustable jets that target your pressure points to promote relaxation and recovery — for your body and mind.

"The swim spa has everything I could ask for and more. It is perfect for my therapeutic workout that I need for my MS and arthritis. I can use the propulsion for swimming, and I can exercise with the equipment included. There is enough room for my pre-teen daughter to play around. For relaxation, my husband and I can sit in the hot tub and watch a beautiful sunset. What an awesome experience!"
